Objective

Motivated Software Engineering student (graduating 2025) with hands-on experience in software development, full-stack applications, and machine learning. Passionate about technology, open source, and building high-impact software solutions. Seeking a junior software engineering position to contribute to meaningful development projects and grow within a forward-thinking team.

Education

B.Sc. in Software Engineering – Ort Braude College of Engineering, Karmiel (Expected 2025)

Relevant Coursework: Data Structures, Advanced Programming, Software Architecture, AI & Machine Learning, Networking, Web Development

Technical Skills

Programming: Python, Java, Go, JavaScript, C#, SQL

Tools & Frameworks: Git, Jenkins, Docker, Postman

Development: REST APIs, Flask, React, Angular (basic), Node.js (basic), Tailwind CSS

Databases: PostgreSQL, MySQL

Systems & Networking: TCP/IP, Ubuntu, CentOS, Windows

Key Projects

Smart Parking Management System (Final Year Project – Ort Braude)

Developed a smart parking reservation system using Flutter (frontend) and Flask with PostgreSQL backend. Implemented K-Means machine learning to classify users as Good, Blocked, or New. Integrated admin dashboard and live availability tracking.

RM DESIGN STUDIO Portfolio Website

Built a responsive React-based website for an architecture studio. Used Tailwind CSS with RTL support, animated scroll effects, and form integration with emailJS and Google Sheets.

Web & Database Projects

Built a dynamic task management web app using Angular and Node.js. Designed and optimized relational databases with SQL queries for project management use cases.

Professional Experience

Technical Support Specialist – Partner Communications (2018–2020)

- Provided customer support for mobile, internet, and TV services
- Diagnosed and resolved technical issues using internal tools and remote access
- Delivered professional service while maintaining high quality and availability targets
- Collaborated with support teams to escalate complex issues

- Assisted with training and supporting new team members when needed
